Authors:

Brijesh Mehta and QJ Wang

ISBN 1 74146 961 9

Acknowledgments:

The funding for this work was provided by Victorian Government's Water for Growth Initiative, through the Goulburn Broken Catchment Management Authority and the Department of Sustainability and Environment.

The authors would like to gratefully acknowledge Peter Clayton, Tony Cook, Ben Binger and Edward Thomas for their dedication to the collection and management of field and laboratory data, without which this report could not have been written.

The authors would like to gratefully acknowledge David Robertson, Mark Wood, Matthew Bethune, and other members of the Hydrology Group at DPI Tatura for their advice and assistance. We would like to thank Alfred Heuperman, Kerry Greenwood and Ken Olsson for their support during the early stages of the study. The authors would like to gratefully acknowledge Ken Sampson, David Lawler, and Clair Haines for their contribution to the organisation of the technical workshop. We would also like to thank participants of the workshop and farmers who allowed us to conduct field measurements on their farms.

We appreciate the assistance of Andy McAllister and Richard Maxwell for their support in GIS and Brendan Paterson for administrative support. We would like to thank Mike Morris, Des Whitfield, Alan Lavis and Trish Lothian for their review of this report.

Contents

Foreword	7
List of Abbreviations	8
1. Introduction	
1.1 Background	9
1.2 Information in the Document	9
1.3 Organisation of the Data	10
2. Soils in the Shepparton Irrigation Region	
2.1 Soil Maps of Irrigation Areas	11
2.2 Soil Types and Soil Groups	12
2.3 Soil Horizons	12
Figure 1 Soil surveys in the region	13
Figure 2 Irrigation areas in the region	14
Table 1. Soil types	
1.1 MV irrigation area	15
1.2 SCG irrigation area	16
1.3 RC irrigation area	17
3. Measurement of Soil Hydraulic Properties	
3.1 Soil Hydraulic Parameters	19
3.1.1 Soil Water Holding Capacity	19
3.1.2 Saturated Hydraulic Conductivity	21
3.1.3 Final Infiltration Rate	22
3.1.4 Background Soil Parameters	22
3.2 Field Measurement	23
3.2.1 Sampling Sites	23
3.2.2 Sampling Points	24
3.2.3 Soil Profile	24
3.2.4 Saturated Hydraulic Conductivity	25
3.2.5 Final Infiltration Rate	25
3.2.6 Soil Sampling	26
3.3 Laboratory Measurement	26
3.3.1 Bulk Density	26
3.3.2 Soil Water Retention Characteristic	26
3.3.3 Particle Size Distribution	27
3.3.4 Chemical Analysis	27
3.4 Data Analysis	27
Figure 3 Sampling sites	28
4. Pedotransfer Functions of Soil Water Retention Characteristic	
4.1 Pedotransfer Function	29
4.2 Parameter Estimation	30
4.2.1 Soil Property Data	30
4.2.2 Fitting Parameters	30

4.3	Evaluation Criteria.....	31
-----	--------------------------	----

5. Listing by Soil Property/Irrigation Area/Soil Group/Soil Type

Table 2.	Particle size distribution of Horizon A	
2.1	MV irrigation area.....	33
2.2	SCG irrigation area	34
2.3	RC irrigation area	35
Table 3.	Particle size distribution of Horizon B1	
3.1	MV irrigation area.....	36
3.2	SCG irrigation area	37
3.3	RC irrigation area	38
Table 4.	Depth, bulk density and organic matter content of Horizon A	
4.1	MV irrigation area.....	39
4.2	SCG irrigation area	40
4.3	RC irrigation area	41
Table 5.	Bulk density and organic matter content of Horizon B1	
5.1	MV irrigation area.....	42
5.2	SCG irrigation area	43
5.3	RC irrigation area	44
Table 6.	EC, pH (H ₂ O), pH (CaCl ₂) of Horizon A	
6.1	MV irrigation area.....	45
6.2	SCG irrigation area	46
6.3	RC irrigation area	47
Table 7.	EC, pH (H ₂ O), pH (CaCl ₂) of Horizon B1	
7.1	MV irrigation area.....	48
7.2	SCG irrigation area	49
7.3	RC irrigation area	50
Table 8.	Exchangeable cations of Horizon A	
8.1	MV irrigation area.....	51
8.2	SCG irrigation area	52
8.3	RC irrigation area	53
Table 9.	Exchangeable cations of Horizon B1	
9.1	MV irrigation area.....	54
9.2	SCG irrigation area	55
9.3	RC irrigation area	56
Table 10.	Exchangeable sodium percentage (ESP) of Horizon A	
10.1	MV irrigation area.....	57
10.2	SCG irrigation area	58
10.3	RC irrigation area	59

15.3	RC irrigation area.....	74
Table 16.	Water retention characteristic of Horizon B1	
16.1	MV irrigation area	75
16.2	SCG irrigation area.....	76
16.3	RC irrigation area.....	77
Table 17.	Available water capacity of Horizon A	
17.1	MV irrigation area	78
17.2	SCG irrigation area.....	79
17.3	RC irrigation area.....	80
Table 18.	Available water capacity of Horizon B1	
18.1	MV irrigation area	81
18.2	SCG irrigation area.....	82
18.3	RC irrigation area.....	83

6. Listing by Soil Property/ Soil Group

Table 19.	Particle size distribution	
19.1	Horizon A	85
19.2	Horizon B1	86
Table 20.	Depth, bulk density and organic matter content	
20.1	Horizon A	87
20.2	Horizon B1	88
Table 21.	EC, pH (H ₂ O), pH (CaCl ₂)	
21.1	Horizon A	89
21.2	Horizon B1	90
Table 22.	Exchangeable cations	
22.1	Horizon A	91
22.2	Horizon B1	92
Table 23.	Exchangeable sodium percentage (ESP)	
23.1	Horizon A	93
23.2	Horizon B1	94
Table 24.	Saturated hydraulic conductivity	
24.1	Horizon A	95
24.2	Horizon B1	96
24.3	Horizon B2	97
Table 25.	Final infiltration rate of Horizon B1	98

Table 26.	Water retention characteristic	
26.1	Horizon A.....	99
26.2	Horizon B1	100
Table 27.	Available water capacity	
27.1	Horizon A.....	101
27.2	Horizon B1	102

7. Listing by Soil Type/ Soil Property

Table 28.	Physical, chemical and hydraulic properties	
28.1	Alta clay loam.....	103
28.2	Boosey loam.....	104
28.3	Boosey loam friable phase.....	105
28.4	Carag clay	106
28.5	Cobram loam	107
28.6	Congupna clay	108
28.7	Congupna clay loam.....	109
28.8	East Shepparton fine sandy loam.....	110
28.9	Goulburn clay loam	111
28.10	Goulburn loam	112
28.11	Goulburn loam friable phase	113
28.12	Katamatite loam	114
28.13	Koga clay loam.....	115
28.14	Koyuga clay loam.....	116
28.15	Lemnos loam.....	117
28.16	Lemnos loam friable phase.....	118
28.17	Lemnos loam semi-friable phase.....	119
28.18	Moirra loam	120
28.19	Moirra loam friable phase.....	121
28.20	Muckatah clay loam.....	122
28.21	Nanneella fine sandy loam	123
28.22	Naring loam	124
28.23	Rochester clay.....	125
28.24	Sandmount sand.....	126
28.25	Sandmount sand phase	127
28.26	Shepparton fine sandy loam	128
28.27	Similar range Ss to Csl.....	129
28.28	Timmering loam	130
28.29	Ulupna clay.....	131
28.30	Waaia loam.....	132
28.31	Waaia loam phase.....	133
28.32	Wallenjoey clay	134
28.33	Wana loam	135
28.34	Wanalta loam.....	136

8. Listing by Irrigation Area/ Soil Group /Soil Property

Table 29.	Physical, chemical and hydraulic properties	
	MV irrigation area	
29.1	Group 1 Sandy soils	137
29.2	Group 1 Duplex soils.....	138
29.3	Group 2.....	139

29.4	Group 3	140
29.5	Group 5	141
29.6	Group 6	142
	SCG irrigation area	
29.7	Group 1 Duplex soils	143
29.8	Group 2	144
29.9	Group 3	145
29.10	Group 4	146
29.11	Group 5	147
29.12	Group 6	148
	RC irrigation area	
29.13	Group 1 Duplex soils	149
29.14	Group 2	150
29.15	Group 3	151
29.16	Group 4	152
29.17	Group 5	153
29.18	Group 6	154

9. Listing by Soil Group/ Soil Property

Table 30.	Physical, chemical and hydraulic properties	
30.1	Group 1 Sandy soils	155
30.2	Group 1 Duplex soils	156
30.3	Group 2	157
30.4	Group 3	158
30.5	Group 4	159
30.6	Group 5	160
30.7	Group 6	161

10. Listing of Pedotransfer Functions of Water Retention Characteristic

Table 31.	Water retention pedotransfer functions	
31.1	Horizon A	163
31.2	Horizon B1	164

11. Selected Maps of Soil Hydraulic Properties

Figure 4	Saturated hydraulic conductivity of Horizon B1	
4.1	MV irrigation area	165
4.2	SCG irrigation area.....	166
4.3	RC irrigation area.....	167
Figure 5	Final infiltration rate of Horizon B1	
5.1	MV irrigation area	168
5.2	SCG irrigation area.....	169
5.3	RC irrigation area.....	170
