

Soil landform unit: HG4; Hills, granitic, type 4, Omeo South

Landform pattern	Hills, low hills
Elevation (m)	700-850
Annual rainfall (mm)	550-750
Geomorphic unit	1.3.4 Eastern Uplands; Ridges, Valleys and Hills; Enclosed Low Hills and Valleys
Geology	Silurian tonalite (granitic) and associated colluvium

Locality diagram

Position in landscape

Landform component	1	2
Landform element	Moderate to steep slopes	Gentle to moderate slopes
Slope range (%)	10-32	3-10
Site drainage	Well drained	Well drained
Rock outcrop	Nil	Nil
Soil description	Gritty, grey/yellow texture contrast soil, Gritty, grey gradational soil	Gritty, grey/yellow texture contrast soil, Gritty, grey gradational soil
Present land use	Grazing	Grazing
Susceptibility to erosion	Sheet and rill: Very high	Sheet and rill: High
	Gully: High	Gully: High
	Landslip: High	Landslip: Low
	Wind: Very high	Wind: Moderate
Native vegetation	<i>Eucalyptus albens</i> , <i>E. goniocalyx</i> , <i>E. polyanthemos</i> , <i>E. globoidea</i> , <i>E. globulu</i> , <i>E. rubida</i>	<i>E. albens</i> , <i>E. goniocalyx</i> , <i>E. polyanthemos</i> , <i>E. globoidea</i> , <i>E. globulu</i> , <i>E. rubida</i>
