

6. ACKNOWLEDGEMENTS

There are many people to be thanked for their contributions to this report.

Firstly, James Matters who assisted with the field work and map production and Penny Fischer for her assistance in the field and work in the laboratory.

Grant Boyle and Robyn Hodgson for their assistance in the field. Nathalie Baxter and Evan Jones for helping with the final stages of the report. Keith Reynard for patiently entering information into GIS and Mike Austin for his work on the WARIS database. Eric Wilkinson, formerly of the Department of Manufacturing, Industry and Development, for base geological information and Lindsay Briggs for drafting.

Finally a special thanks to June Bowman and Kath Ferrari for all their work in typing and formatting this report.
