

from	to1	description
0	3	SHALES/METAMUDSTONES, ferruginised laminated, spotted
3	6	Common oxidised weather spotted slates
6	12	qtz, oxidised weather spotted slate
12	18	darker coloured
18	21	Shale
21	24	less weathered - metashales
24	27	medium spotted laminated slates
27	30	struck water
30	33	SHALES
33	39	sandstone , f/g with common FeO2 veinlets
39	45	SHALES - Blue-Green laminated f/g shales
45	51	slightly coarser shale set
51	54	Metasediments with Common qtz stringers

Geology- Marine shale to sandstone
GFS- Local flow systems in fractured sedimentary and metamorphic rocks
 Water EC. 2820us/cm (12/04)
