

Soil landform unit: PHGn; Plateaux on gneiss hills, Big Ben

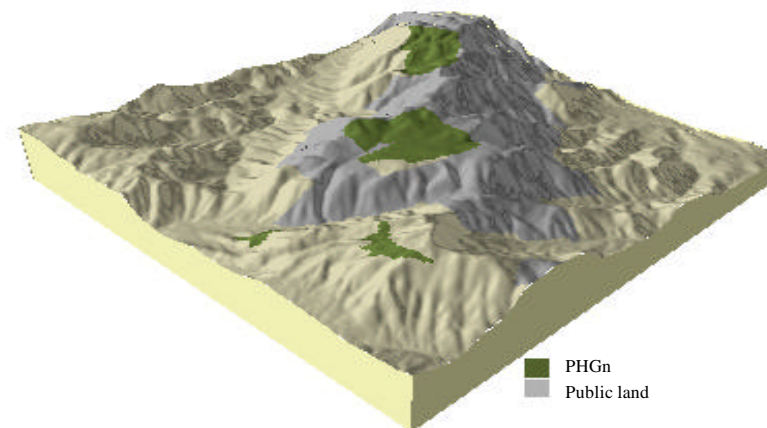

Landform pattern	Low hills
Elevation (m)	500-750
Annual rainfall (mm)	850-1200
Geomorphic unit	1.2.2 Eastern Uplands; Intermediate Elevation Landscapes; Plateaux
Geology	Coarse and medium metamorphics; gneiss, schist

Locality diagram

Position in landscape

Landform component	1
Landform element	Upper, mid and lower slopes
Slope range (%)	10-25
Site drainage	Well drained
Rock outcrop	Very slightly rocky
Soil description	Gritty, friable red gradational soil, occasionally brown
Present land use	Grazing, conservation
Susceptibility to erosion	Sheet and rill: Moderate Gully: Moderate Landslip: Moderate Wind: Moderate
Native vegetation	<i>Eucalyptus radiata</i> , <i>E.dives</i> , <i>E. viminalis</i>
