

Acknowledgments

This report was compiled by Sinclair Knight Merz with the assistance of:

- EWR Consultants – specifically Shawn Butters who chaired the groundwater flow systems workshop and David Heislars who reviewed the discussion and final reports;
- Ian Sargeant of Ian Sargeant and Associates who provided interpretation of soil permeability from previous soil mapping conducted by Sargeant and Imhof (2000) and Sargeant and Imhof (in press). The resultant soil permeability map is shown in Figure 8.
- The numerous community, technical and agency representatives who attended a two day workshop in Foster on the 23rd and 24th February 2005. The workshop attendees are listed below.
