

MAP UNIT SYMBOL LEGEND			
LANDFORM PATTERN		GEOLOGICAL CATEGORY	OTHER DEFINING FEATURES
Symbol 1	Symbol 2	Symbol 3	Symbol 4
P PLAINS	l level	A Alluvial	Numbers 1-5 *
R RISES	d dissected remnants	B Basaltic	Used to differentiate areas with similar landform/geology, but with significant other differences in one or more of the following: soils vegetation climate proportion of landform elements
RL RISES TO LOW HILLS	g gently undulating g/u gently undulating to undulating	C Colluvial G Granitic	
L LOW HILLS	u undulating	S Sedimentary	* refer to individual descriptions in text
LH LOW HILLS TO HILLS	u/r undulating to rolling	T Tertiary alluvial and colluvial	
H HILLS	r rolling		
V VOLCANIC HILLS			
E ENTRENCHED VALLEYS			

Example symbol 1 symbol 3 = PLAINS - level, Alluvial, type 1
 symbol 2 symbol 4
