MAP UNIT SYMBOL LEGEND			
LANDFORM PATTERN		GEOLOGICAL CATEGORY	OTHER DEFINING FEATURES
Symbol 1	Symbol 2	Symbol 3	Symbol 4
P PLAINS	l level	A Alluvial	Numbers 1-5 *
R RISES	d dissected remnants	B Basaltic	Used to differentiate areas with similar landform/geology, but with significant other differences in one or more of the following:
R/L RISES TO LOW HILLS	g gently undulating	C Colluvial	soils
L LOW HILLS	gu gently undulating to undulating	G Granitic	vegetation
L/H LOW HILLS TO HILLS	u undulating	S Sedimentary	climate
H HILLS	ur undulating to rolling	T tertiary alluvial and colluvial	proportion of landform elements
V VOLCANIC HILLS	r rolling		* refer to individual descriptions in text
E ENTRENCHED VALLEYS			

Example: symbol 1 — symbol 3 = PLAINS — level, Alluvial, type 1
 symbol 2 — symbol 4
