

MAP UNIT SYMBOL LEGEND			
LANDFORM PATTERN		GEOLOGICAL CATEGORY	OTHER DEFINING FEATURES
Symbol 1	Symbol 2	Symbol 3	Symbol 4
P PLAINS	l level	A Alluvial	Numbers 1 to 4
R RISES	d dissected remnants	B Basaltic	Used to differentiate areas with similar landform/geology, but with significant other differences in one or more of the following:
R/L RISES TO LOW HILLS	n gently undulating	C Coluvial	soils
L LOW HILLS	gu gently undulating to undulating	G Granitic	vegetation
L/H LOW HILLS TO HILLS	u undulating	S Sedimentary	climate
H HILLS	ur undulating to rolling	T Tertiary alluvial and coluvial	proportion of landform elements
V VOLCANIC HILLS	r rolling		* refer to individual descriptions in text
E ENTRENCHED VALLEYS			

Example symbol 1 } symbol 3 = PLAINS - level, Alluvial type 1  
 symbol 2 } symbol 4
