

MAP UNIT SYMBOL LEGEND			
LANDFORM PATTERN		GEOLOGICAL CATEGORY	OTHER DEFINING FEATURES
Symbol 1	Symbol 2	Symbol 3	Symbol 4
P PLAINS	l level d dissected remnants	A Alluvial B Basaltic C Colluvial G Granitic S Sedimentary T Tertiary alluvial and colluvial	Numbers 1-5 * Used to differentiate areas with similar landform/geology, but with significant other differences in one or more of the following: soils vegetation climate proportion of landform elements
R RISES	g gently undulating glu gently undulating to undulating		
RL RISES TO LOW HILLS	u undulating ulr undulating to rolling		
L LOW HILLS			
LH LOW HILLS TO HILLS			
H HILLS			
V VOLCANIC HILLS			
E ENTRENCHED VALLEYS			
Example: symbol 1 — symbol 3 symbol 2 — symbol 4		= PLAINS — level Alluvial, type 1
