

MAP UNIT

Volcone Plain

MAP SYMBOL VP

GENERAL DESCRIPTION

Undulating (0-5%) plain on volcanic material – mainly basalt. Soils are red duplex (some grown) with heavy clay subsoils that are somewhat poorly drained

LAND ASSESSMENT

- A Erosion Risk Associated with Land Disturbance
 - Class 2 Long gentle slopes (fallow wash)
- B Constraints on Construction
 - Class 3 High shrink-swell clay
- C Effluent Disposal by Soil Absorption
 - Class 3-4 Slow to very slow percolation rates in the subsoil clay
- D Small Farm Dams
 - Class 2 Rock

OVERALL ASSESSMENT FOR RURAL SUBDIVISION 2-10 ha (Considering A, B, C & D)

- Class 3 Large systems for Effluent Disposal (Good cropping land)
