

You are invited to a ...

# ***Willows Workshop***

*What's up with willows?*

*Which willow is which?*

*Which areas or species should we target?*

*What's eating our willows?*

***Come along to the workshops to;***

- ***hear about what's happening with willows across the region, state wide and nationally,***
- ***receive training in willow identification and mapping,***
- ***learn about the willow sawfly (an insect that attacks willows and is rapidly spreading nationally), how to detect and monitor it and how it is likely to affect willows across the region and***
- ***help regional priorities for willow management.***
