

# **Trace Elements for Pastures and Animals in Victoria**

Prepared by:  
W. J. Hosking, I. W. Caple,  
C. G. Halpin, A. J. Brown, D. I. Paynter,  
D. N. Conley, P. L. North-Coombes

For the Trace Element Review Committee of the State Department of Agriculture and  
Rural Affairs, Victoria:

W. J. Hosking (Convenor) I. W. Caple  
D. N. Conley  
J. R. Salisbury  
J. M. Obst

## ***Cover photographs***

1. Test strips demonstrate spectacular responses to trace element fertilisers on experimental lucerne plots in the Little Desert.
2. Marginal necrosis and cupping typical of copper deficiency in subterranean clover.
3. Accurate chemical analysis provides the essential laboratory confirmation that trace element supplements are required.
4. Animal health problems must be investigated by trained personnel.
