1.0 Introduction	1
1.1 Background	1
1.2 The project	2
1.3 Uses for the information	3
2.0 How willow management priorities were developed	5
2.1 Determining the extent of willows	5
<i>Collate existing information</i>	5
<i>On-ground mapping & ground truthing</i>	7
<i>Interactive maps: current and potential distribution of willows</i>	9
2.2 Weed risk assessment	9
<i>Introduction</i>	9
<i>How the Willows Weed Risk Assessment was conducted</i>	15
3.0 Willow management priorities across Australia	32
3.1 Determining the extent of willows: Where are our willows?	32
<i>Collating existing information</i>	32
<i>On-ground mapping & ground truthing</i>	32
<i>Current distribution of willows</i>	34
<i>Impact of updating willow distribution data</i>	41
3.2 Weed risk assessment: Which are our worst willows?	43
<i>Willow invasiveness & impacts</i>	43
<i>Willow distribution</i>	43
<i>Willow risk</i>	48
<i>Prioritisation matrix – an explanation</i>	49
<i>National prioritisation matrix</i>	52
<i>National and regional rankings of the willow taxa</i>	54
4.0 The way forward - recommendations	58
4.1 Using these recommendations	58
4.2 General recommendations	59
4.3 On-ground management recommendations	60
<i>States and regions with no willows</i>	60
<i>States with outlier willow populations</i>	61
<i>States with established willow populations</i>	64
4.4 The national perspective as a case study for regional prioritisation	68
4.5 National case study: Prioritising willow management based on asset protection	76
4.6 Legislative recommendations	78
<i>National prioritisation to inform weed legislation</i>	78
<i>Willows currently listed as WoNS</i>	78
<i>Willows currently exempt from WoNS</i>	79
4.7 What have we achieved?	81
<i>Key outcomes</i>	81
<i>Future directions of the National Willows Taskforce</i>	83
5.0 Further information	84
5.1 References and further reading	84
5.2 List of supplementary information	93
5.3 Appendices	96
