Disclaimer

The information presented in this publication is offered by the State of Victoria (Department of Natural Resources and Environment) solely to provide information at the 1:100 000 scale. It is therefore suitable for broad planning purposes rather than at the paddock level. Prior to investment in any new agricultural industry, the authors strongly advise that further detailed analysis be carried out by an organisation with proven, relevant skills, at the paddock level to further identify limitations and provide detailed management options.

Baxter, N.M. (Nathalie Marie), 1968- .
Agricultural and horticultural land suitability for the
West Wimmera Shire

CONTENTS

Acknowledgments	iii
-----------------------	-----

Volume 1

Chapter 1. Overview and Outcomes

1.1 Introduction	1
1.2 How to use this report	2
1.3 Geographic information system user notes	2

Chapter 2. Background Information

2.1 Landform and geology	5
2.2 Geomorphology	5
2.3 Climate	7
2.4 Soil fertility	9

Chapter 3. Land Suitability

3.1 Land suitability rationale and methodology	15
3.2 Broadacre non-irrigated crops	18
3.21 Wheat	18
3.22 Canola	22
3.23 Chickpeas	27
3.24 Lentils	31
3.3 Irrigated broadacre pasture seeds	35
3.31 White clover seed	35
3.32 Lucerne for seed production	40
3.4 Irrigated horticultural crops	45
3.41 Viticulture	45
3.42 Apples	51
3.5 Irrigated vegetable crops	56
3.51 Potatoes	56
3.52 Carrots	61
3.53 Onions	66
3.54 Sweet corn	71
3.6 Dryland forestry	76
3.61 Radiata Pine	76
3.62 Blue Gum	79

Chapter 4. Groundwater and Salinity	
4.1 Background	83
4.2 Murray Basin Aquifers	83
4.2.1 Parilla Sands Aquifer	83
4.2.2 Murray Group Aquifer	84
4.2.3 Renmark Group	85
4.2 Murray Basin Aquifers	86
Chapter 5. Summary of Land Systems, Map Units and Soils	
5.1 Land resource mapping	89
5.2 General land systems and land elements descriptions	90
5.3 Definition of map units	92
5.4 General soil descriptions	94
<u>Volume 2</u>	
Chapter 6. Detailed descriptions of Land Systems, Land Units and Land Suitability	
6.1 Overview	97
6.2 Land systems	97
6.2.1 Big Desert - 1 land system	101
6.2.2 Big Desert Transition - 2 land system	123
6.2.3 Stranded Beach Ridges - 3 land system	137
6.2.4 Northern Cracking Clay Plains - 4 land system	174
6.2.5 Grey and Red Plains and Rises - 5 land system	181
6.2.6 Limestone Rises - 6 land system	205
6.2.7 Self-mulching Clay Plains - 7 land system	224
6.2.8 Little Desert Transition - 8 land system	231
6.2.9 Little Desert - 9 land system	247
6.2.10 Southern Cracking Clay Plains - 10 land system	252
6.2.11 Yellow Gum Plains and Rises - 11 land system	266
6.2.12 Red Gum Plains and Rises - 12 land system	299
6.2.13 Sand Plains and Rises - 13 land system	326
6.2.14 Dissected Tablelands - 18 land system	346
6.2.15 Lunettes - 14 land element	371
6.2.16 Intermittent Swamps - 15 land element	376
6.2.17 Permanent Water Bodies - 16 land element	386
6.2.18 Swamp and Lake Complex -17 land element	387
Chapter 7. Bibliography	389

Appendix 1. Glossary..... p.393
Appendix 2. Methods..... p.409
Appendix 3. Working tables for land suitability class p.417
Appendix 4. Chemical analysis p.445
